A RARE EXHIBIT - Rare Diseases, Leaving No One Behind - aims to give visibility to rare diseases and the more than 300 million people living with a rare disease around the world today.

The exhibit is made of two photo projects by two professional photographers supported by rare disease patient associations in Italy and Cyprus. The two photo projects aim to put a human face on this group of diseases and portray the common experience of patients and families.

This exhibit is made possible thanks to the valuable support of:
