

XII Rare Disease Day

Rare Disease Day

Thursday 28th February 2019

**Clinical Research Center for Rare Diseases “Aldo e Cele Daccò”
Villa Camozzi- Ranica, Bergamo**

Mario Negri Institute for Pharmacological Research IRCCS organizes

**Open Day: information, research and treatment.
Guided tour about rare diseases for secondary schools**

The students will be guided, step by step, along the path that a patient with a rare disease follows: they will begin with general information about what rare diseases are, and about the importance of Rare Disease Day, then they will see the clinical rooms for the patients, and finally they will visit the research laboratories, where they will conduct basic experiments, guided by researchers.

The visits will be from 08:30 to 13:30
